

## Charter Review procedure deficiencies

3-18-26

Dear Commissioners,

You were notified on 3-9-26 of 3 critical deficiencies regarding transparency and public access.

We are now 10 meetings into the process with a deadline looming for amendment proposals.

Only one of the deficiencies I have brought to your attention has been rectified.

I am not sure what is holding this up, but each day that goes by can be considered a withholding and alienation of the public in the proceedings.

In one day I have been able to create my own posting for all 3 deficiencies and make it available to anyone interested.

1. [Procedures](#)
2. [Amendments](#)
3. [Progression](#)

If I was able to address all 3 concerns with no specialized skills, I cannot understand why this cannot be accomplished by the County.

Initially, culpability in these deficiencies could be dismissed for numerous reasons but now that you have been made aware of the problem and they have not been rectified, I am growing suspicious of either apathy or more nefarious intent.

Each day that goes by without the public having access to this critical information will have impacts that can last for 10 years.

Please do not dismiss this notice.

I will continue to pursue this and the record is mounting.

This is no longer a notice, it is a demand.

With deep concern,

John Leslie
